NURUDEEN OLALEMI
FRONTEND DEVELOPER

Tel: +447506154567
Email: olaleminurudeen@gmail.com
Address: Islington, London.

PROFILE

A passionate developer with a can-do attitude, whose coding skills were honed by working on self-paced projects and working professionally as a front-end developer. I am interested in building next-generation products or improving existing ones. I would love to work as part of a team that solves unique, large-scale, overly complex technical problems.

PROFESSIONAL EXPERIENCE

Frontend Developer
CoolHands Studios
Leeds, UK
March 2022 - Present

- Worked in a team of 5 to modify codes and design new custom applications with vanilla JavaScript and React.js
- Consumed APIs, Translated UI/UX design wireframes to actual code
- Responsible for handling the whole product lifecycle from ideation to implementation and ensuring all client requirements are met.
- Ensured cross-platform optimization for mobile phones and responsiveness of applications,
- Designed, developed, coded, and tested software applications for existing and new products.
- Improved user experience and added new functionalities to existing systems

Frontend Developer
Haptle technologies *(Startup)*
July 2020 - December 2020

- Translated UI/UX designs from the Figma board into several components for the user interface of the web application using React.Js, Typescript, ChakraUI, and Mobx State Tree,
- Completely built the application static webpage for users to join our waitlist.
- Maintained and consistently participated in code reviews for 4+ repositories.

Junior Frontend Developer
Delphi Technologies
Lekki
June 2019 - June 2020

- Designed and Implemented and developed custom applications with HTML, Vanilla JavaScript, and CSS
- Developing and maintaining the user interface and also Implementing design on the mobile website.
- Managing software workflow and optimizing the user experience.

EDUCATION

Electronic and Communications Engineering - MSc
University of Huddersfield
Huddersfield, UK
2022

Electronic and Computer Engineering - BSc
Lagos State University Ojo,
Lagos, Nigeria
2017

TECHNICAL / SOFT SKILLS

- HTML, CSS, SCSS, Tailwind CSS, Material UI, Typescript, React.js, Node.js, Git, Chakra UI, MObx State tree
- Familiarity with PostgreSQL
- Ability to design and integrate RESTful APIs
- Familiarity with CI/CD practices
- Ability to work in an Agile delivery team
- Great communicator and ability to work in a team
- Positive and can-do attitude

PERSONAL PROJECTS

ROBO FRIENDS APP

- An interactive and responsive frontend app that pulls a list of profiles of robots from a JSON file and populates it on a webpage, each robot profiles can also be accessed via the search robots bar
- Built with Javascript and React
- This frontend task can be accessed in my Github repo

GOOGLE BOOKS API

- The goal of the task is to build a listing page for a list of books using the Google books API
- It was required not to use any front-end framework but HTML, CSS, and Vanilla JS to achieve this task
- This frontend task can be accessed in my Github repo

TIP CALCULATOR APP

- Designed and implemented a tip calculator app that calculates the correct tip and total cost of bills per person for a meal
- The project was achieved with HTML 5, SASS, and vanilla JS
- This frontend task can be accessed in my Github repo
